Forecast For West Midlands
Issued by Met Office Exeter
at 0400 on Thursday 30 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Remaining changeable but very mild over the coming days.

Today:
A rather cloudy and damp start with some patchy rain in places. It may turn briefly drier and brighter for a time around the middle of the day, before further patchy rain arrives later. Feeling mild despite the cloud. Maximum temperature 15 deg C (59 deg F).

Tonight:
Staying rather cloudy with some drizzle in places this evening, before a band of rain and stronger winds moves in overnight. Overnight temperatures staying in double figures for most. Minimum temperature 9 deg C (48 deg F).

Friday:
New Year's Eve will start rather grey and damp, but it should turn drier and brighter throughout the afternoon. Remaining very mild with winds easing. Maximum temperature 15 deg C (59 deg F).

Outlook for Saturday to Monday:
A bright but blustery day on New Year's Day with some showers around. Remaining similar on Sunday, before it turns drier but colder on Bank Holiday Monday.
